Arc Desk Lamp: 40-Second Product Demo

A faceless product video in a Problem → Product → Proof → Offer format, for a brand's YouTube, reels and product page. Five 8-second clips, no presenter, hands only, with a voice-over.

Format: product demo | 40 s · 16:9, with a 9:16 cut | 5 clips × 8 s | AI voice-over, no on-camera host

SAMPLE · AI-ASSISTED Concept work by ASTRALX Studio to show the service, not client work. "Lumaro" and "Arc" are made-up names; the product and its features are invented. Clips are made with AI video generation and the voice-over is AI-generated; script, direction and edit are by a person.

Storyboard

One desk, one lamp, one pair of hands across all five clips, so the cut feels like a single scene.

00:00

11 p.m. Still working.

PROBLEM

Hands at a keyboard under a harsh, cold desk light. A clock reads 11:04.

00:08

Cool focus → warm wind-down

PRODUCT

One touch on the arc lamp and the light shifts from cool white to warm amber.

00:16

Tap tap = 25 min

PROOF · TIMER

A finger taps the base twice; a thin ring of light glows.

00:24

Dims when it's break time

PROOF · AUTO-DIM

Time-lapse on the desk, then the lamp dims on its own.

00:32

Arc by Lumaro

OFFER

Lamp alone on a tidy desk, warm glow. End card with name and button.

Script

00:00 – 00:08

Problem

It's eleven at night. Your screen is bright, your desk light is harsh, and your eyes are done.

SOUND Low keyboard clicks, a faint electric hum.

00:08 – 00:16

Product

Meet Arc by Lumaro. One touch shifts the light from cool focus to a warm wind-down.

SOUND A soft tap, the hum fades, music begins.

00:16 – 00:24

Proof · timer

Tap twice for a 25-minute focus timer.

ON SCREEN "Tap tap = 25 min" beside the glowing ring.

00:24 – 00:32

Proof · auto-dim

When it's time for a break, Arc dims on its own. No app, no setup.

SOUND A soft chime as the light dims.

00:32 – 00:40

Offer

Arc by Lumaro. Light that knows when you've had enough. Shop the launch edition.

ON SCREEN Product name, one line of copy, "Shop now" button.

What the client receives

FILE	DETAIL
Master video	40 s, 16:9, 1080p, captions burned in
Vertical cut	40 s, 9:16 for reels and Shorts
Caption file	.srt for platforms that add captions themselves
Thumbnail concept	One frame plus a headline option
Disclosure note	Which AI-content labels to set when uploading
